Subject: Some Updates

Inspector,

Current Update. This is obviously going to change and I will keep you updated closer to the media scrum. I'm sure you are aware that there is now slowdowns and possible shut downs in Sarnia at the Bluewater Bridge which could change the situation here as we would no longer be able to divert trucks there. They are monitoring that situation here closely. I will keep you apprised as this may be something media will want to know about.

As of approximately 9:00 am, WPS reports approximately 50 – 75 vehicles in the area and approximately 100 protesters.

Northbound traffic on Huron Church Road from Tecumseh Road West is blocked off. The Ambassador Bridge can still be accessed via Wyandotte Street West.

In terms of Emergency Vehicle access...the protesters have been compliant throughout the protest in providing an emergency route all ways. We do have lanes available for emergency vehicles to access id necessary. This is something we are closely monitoring to make sure this stays status quo.

Tal
